REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claims are drawn to a process for inhibiting growth of a target cell by administration of antimicrobial peptides of SEQ ID No: 1-23, 29-61 and 64. Applicants have clearly demonstrated efficacy of these peptides in both Gram negative and Gram positive bacteria and also in fungi (see Examples). The prior art cited, specifically Bazile et al. which discloses periodic peptides of $(LK)_n$ where n is greater than 4, does not obviate SEQ ID Nos: 42-50 because Bazile et al. teach the use of these peptides as carriers to transport DNA into cells, and do not suggest the use of the said peptides as antimicrobial agents. Thus, all sequences claimed are free of the prior art and are also non-obvious. **The allowed claims are 66-182.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
